

JOHN ESTEBAN LIÉVANO MÉNDEZ

JUNIOR SOFTWARE DEVELOPER | FULL STACK | IT PROJECTS

Bogotá, Colombia | [304 470 2082](tel:3044702082) | johnestebanlievanomendez@gmail.com

Portfolio: portfolio-john-amber.vercel.app | LinkedIn: linkedin.com/in/johnlievano | GitHub: github.com/johnlievano

PROFESSIONAL PROFILE

Junior Software Developer with practical experience in web solution development and participation in technological projects. I have the ability to analyze requirements, develop and integrate solutions, resolve issues, and implement improvements focused on system quality and efficiency. I stand out for my continuous learning, logical thinking, teamwork, and adaptability to new environments.

TECHNICAL SKILLS & COMPETENCIES

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS.

Backend: Node.js, NestJS, Python, Google Apps Script.

Database & Cloud: PostgreSQL, Google BigQuery, Docker, Google Cloud Platform (GCP).

Tools & AI: Git, GitHub, VS Code, Vite, Claude, Gemini.

Competencies: Requirements analysis, problem-solving, quality testing, continuous improvement, teamwork, and agile learning.

WORK EXPERIENCE

Junior Software Developer

Mar 2026 - Sep 2026

IntouchCX

- Analyzed requirements and developed corporate tools (Google Apps Script and backend integration) for process optimization.
- Resolved issues (troubleshooting), conducted quality testing, and refactored code to ensure system stability and proper functioning.
- Managed and queried analytical data with Google BigQuery, providing continuous support and monitoring for business platforms.

Junior Web Developer

Aug 2025 - Dec 2025

Áurea Web - Web Development Agency

- Developed modern interfaces with React and TypeScript using reusable and scalable components.
- Implemented Next.js projects, optimizing technical SEO metrics and load times (LCP).
- Integrated backend services (Node.js) efficiently and handled asynchronous data to improve user experience.

FEATURED PROJECTS

Enterprise Resource Planning (ERP) System

Next.js + React + Node.js + PostgreSQL + Tailwind CSS

Centralized platform with backend integration for user, role, and human resources administration, including authentication, access controls, and an analytical dashboard.

proposal-template-one.vercel.app

Landing Page - Polo a Tierra Renewable Energies

React + Vite + Tailwind CSS

Modern and fully responsive frontend designed for the corporate presentation of services and projects in the renewable energy sector.
